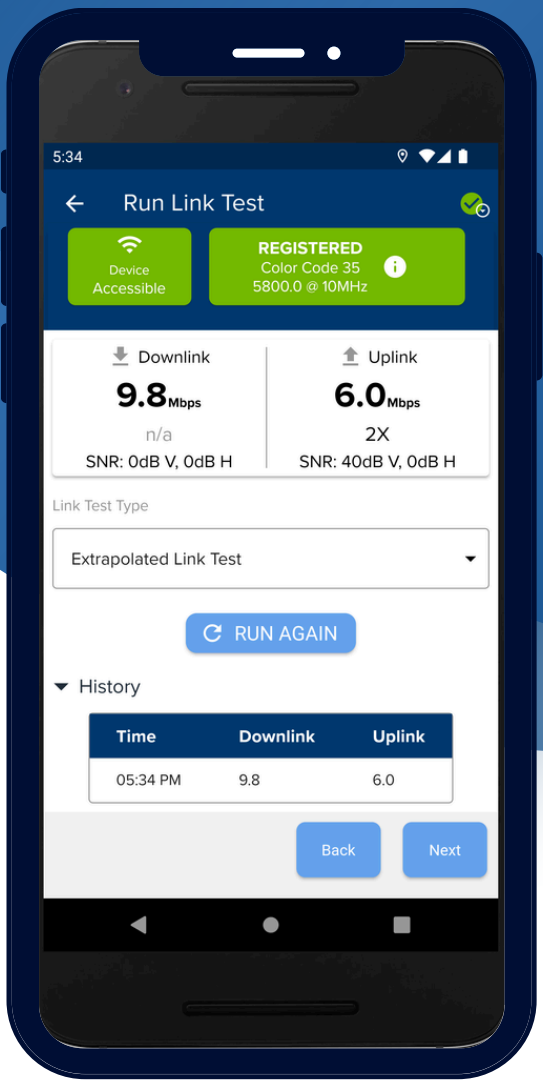
Cambium Networks™

INSTALLATION PRECISION



Raise the bar on installation accuracy with **Cambium Installer**, the free mobile app that gives field techs the information they need to configure and properly align wireless broadband subscriber modules.

VALIDATE IN SECONDS

Designed with input from field technicians and years of experience on millions of subscriber modules deployed, Cambium Installer validates configuration and alignment in seconds.

CONNECT MORE SUBSCRIBERS

Eliminate problems, and focus your manpower on connecting new subscribers as your network grows.

OPTIMIZED AIMING

Increase performance with optimized aiming and automatically populate GPS latitude and longitude on every subscriber.
