OUTDOOR FESTIVALS

cnPILOT™ E400 INDOOR WIFI ACCESS

- Dual Band 802.11ac
- 16 SSIDs
- 256 Clients
- Centrally Managed

cnPILOT™ E500 OUTDOOR WIFI ACCESS

REMOTE MONITORING AND TROUBLESHOOTING

cnMaestro™ is a powerful WiFi management solution that not only facilitates provisioning, configuring and troubleshooting the APs, but also provides a hotspot portal with fully customizable splash pages. With flexible options for both cloud and on-premises deployments, and support for both WiFi and eMPM/PMP wireless backhaul solutions, the administrator always has their network at their fingertips.
