

Enterprise Technical Next-Gen Firewall Specialist

Program Overview

The Cambium Networks Enterprise Technical Next-Gen Firewall Specialist Learning Program is designed to equip users to optimize connectivity across multiple locations, ensuring efficient traffic routing, enhanced security, and cost-effective bandwidth management.

What You Will Learn

The Cambium Certified Enterprise Next-Gen Firewall Specialist training program equips you with the skills to secure and optimize enterprise networks. You'll learn about network security, threat prevention, policy-based traffic control, and cloud-managed networking to ensure reliable and secure operations. Through hands-on experience, you'll also develop the ability to design, deploy, and manage high-performance enterprise networks using Cambium solutions.

Certification*

Upon completing each course, you can pursue certification, which serves as a tangible demonstration of your acquired competency and knowledge.

Badging

After successfully completing all courses, labs and certification exams, you'll receive a Cambium Certified Enterprise Next-Gen Firewall Specialist program badge.

Expertise & Proficiency

Validate your expertise and proficiency in Cambium's networking solutions, enhancing your credibility within the industry.

Cambium Certification

Recognized globally, showcasing your commitment to Cambium Enterprise products.

Demonstrate your skills and have a clear pathway to continuous learning, professional growth, and increased career prospects in the field of networking.

Preparing for the Exams

Cambium Networks highly recommends that candidates seeking certification take all courses outlined in the learning path. Successful completion of the courses, along with reviewing user guide and lab materials, will increase your chances for passing the exam.

About Cambium Networks

Cambium Networks enables service providers, enterprises, industrial organizations, and governments to deliver exceptional digital experiences and device connectivity with compelling economics. Our ONE Network platform simplifies management of Cambium Networks' wired and wireless broadband and network edge technologies. Our customers can focus more resources on managing their business rather than the network. We deliver connectivity that just works.
