

# Certified Enterprise Technical Associate

## Program Overview

- Focus on key products/tools: Wi-Fi Network Design, cnMaestro™ X, Enterprise Access Points, cnMatrix™ Switches, and NSE Security/SD-WAN
- Obtain skills necessary for proficient planning, configuring, managing, and troubleshooting enterprise networks

## What You Will Learn

The Cambium Certified Enterprise Technical Associate training program offers a comprehensive understanding of essential concepts in enterprise networking. Combining lectures, hands-on labs, group discussions, and case studies, this program equips you with the skills to plan, configure, manage, and troubleshoot enterprise networks effectively. Topics covered include the cnMaestro X Network Management System, Enterprise Access Points, cnMatrix Switches, and Security & SD-WAN.

## Certification\*

Complete each course and then pursue certification, which provides a tangible demonstration of your acquired competency and knowledge. The first exam after each completed course is free, allowing for three attempts to pass. Afterward, there is a \$100 fee to retake the exam.

## Badging

Upon successfully passing each exam, you will be awarded an exam badge. Once you have completed all courses and certification exams successfully, you will earn a Cambium Certified Enterprise Sales Associate program badge.

### Expertise & Proficiency

Validate your expertise and proficiency in using Cambium's networking solutions, enhancing your credibility within the industry.

### Cambium Certification

### Preparing for the Exam

Cambium Networks highly recommends that candidates seeking certification take all courses outlined in the learning path. Successful completion of the courses, along with reviewing user guide and lab materials, will increase your chances for passing the exam.

### About Cambium Networks

Cambium Networks enables service providers, enterprises, industrial organizations, and governments to deliver exceptional digital experiences and device connectivity with compelling economics. Our ONE Network platform simplifies management of Cambium Networks' wired and wireless broadband and network edge technologies. Our customers can focus more resources on managing their business rather than the network. We make connectivity that just works.
