

Enterprise Technical Wi-Fi Specialist

Program Overview

The Cambium Networks' Enterprise Technical Wi-Fi Specialist Learning Program is designed to equip users to configure and deploy wireless equipment, troubleshoot network issues, and provide technical support to ensure reliable and efficient wireless connectivity in enterprise environments.

What You Will Learn

The Cambium Certified Enterprise Technical Wi-Fi Specialist program is designed to build your expertise in Wi-Fi networking. You'll develop foundational skills in networking design strategies and gain hands-on experience with cnMaestro X, learning how to deploy, configure, monitor, troubleshoot, and manage Wi-Fi access points effectively.

Certification*

Upon completing each course, you can pursue certification, which serves as a tangible demonstration of your acquired competency and knowledge.

Badging

After successfully completing all courses, labs and certification exams, you'll receive a Cambium Certified Enterprise Wi-Fi Specialist program badge.

Expertise & Proficiency

Validate your expertise and proficiency in managing Cambium's networking solutions, enhancing your credibility within the industry.

Cambium Certification

Recognized globally, showcasing your commitment to Cambium Enterprise products.

Demonstrate your skills and have a clear pathway to continuous learning, professional growth, and increased career prospects in the field of networking.

Preparing for the Exams

Cambium Networks highly recommends that candidates seeking certification take all courses outlined in the learning path. Successful completion of the courses, along with reviewing user guide and lab materials, will increase your chances for passing the exams.

About Cambium Networks

Cambium Networks enables service providers, enterprises, industrial organizations, and governments to deliver exceptional digital experiences and device connectivity with compelling economics. Our ONE Network platform simplifies management of Cambium Networks' wired and wireless broadband and network edge technologies. Our customers can focus more resources on managing their business rather than the network. We deliver connectivity that just works.
