

Enterprise Technical cnMatrix Switch Specialist

Program Overview

The Cambium Networks Enterprise Technical cnMatrix Switch Specialist Learning Program is designed to equip users to deploy, configure, and manage cnMatrix switches within enterprise environments.

What You Will Learn

The Cambium Certified Enterprise cnMatrix Switch Specialist training program helps you develop the skills needed to manage and optimize network performance. You'll learn how to use cnMatrix and cnMaestro for efficient network management, understand network infrastructure, VLAN segmentation, security policies, and automation features, and enhance reliability. Through hands-on training, you'll also gain experience in integrating wired and wireless networks, implementing zero-touch provisioning, and troubleshooting connectivity issues to improve overall network efficiency.

Certification*

Upon completing each course, you can pursue certification, which serves as a tangible demonstration of your acquired competency and knowledge.

Badging

After successfully completing all courses, labs and certification exams, you'll receive a Cambium Certified Enterprise cnMatrix Switch Specialist program badge.

Expertise & Proficiency

Validate your expertise and proficiency in Cambium's networking solutions, enhancing your credibility within the industry.

Cambium Certification

Recognized globally, showcasing your commitment to Cambium Enterprise products.

Demonstrate your skills and have a clear pathway to continuous learning, professional growth, and increased career prospects in the field of networking.

Preparing for the Exams

Cambium Networks highly recommends that candidates seeking certification take all courses outlined in the learning path. Successful completion of the courses, along with reviewing user guide and lab materials, will increase your chances for passing the exam.

About Cambium Networks

Cambium Networks enables service providers, enterprises, industrial organizations, and governments to deliver exceptional digital experiences and device connectivity with compelling economics. Our ONE Network platform simplifies management of Cambium Networks' wired and wireless broadband and network edge technologies. Our customers can focus more resources on managing their business rather than the network. We deliver connectivity that just works.
